

To the Chaperones

Thank you for taking time out of your busy schedule to accompany the students during their Table Rock hiking experience. We are fortunate to have available the unique Table Rock ecosystems and to be able to share knowledge of these areas with each of you on this educational field trip. You are an integral part of the field trip team. We have included a list of ways you can help make this visit successful.

- Please help keep the children on the trail, to avoid damage to plants and prevent erosion. The most effective way to do this is to lead by example.
- Please discourage children from collecting anything. Some things taken might be irreplaceable.
- Please allow children to do the questioning, guessing, analyzing, and answering in discussions.
- If you decide to bring a cell phone, please turn it off so as not to disturb the Table Rock learning experience for the group.

Thanks again. We are looking forward to meeting you at the trailhead!
